Software Documentation

PRODUCTS DIRECTORY

WINTER/SPRING 1988

digital™

Software Products Group

IMPORTANT INFORMATION

Dear DIGITAL Customer:

This Winter/Spring 1988 edition of the Software Documentation Products Directory includes all current products which are available for ordering through DECdirect. This Directory is a complete source of product information and will supersede all other Directories.

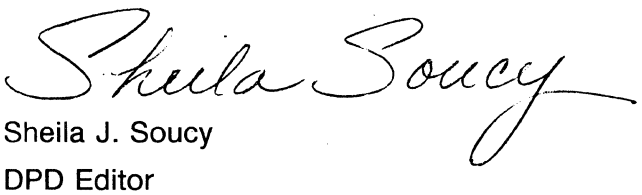
In order to better serve our customer base, some important changes have taken place within the Software Documentation Business in regards to our product offerings. Products which become Archival will not be offered for sale. Digital customers will be given the right to copy, at no charge, any Digital Archival Software Documentation Publication (excluding restricted or third part products) that we no longer offer. However, the copyright is retained as the exclusive property of Digital Equipment Corportation.

Due to the frequency with which software products are revised, it is important to pay close attention to the version of the software documentation kit. When placing your order, please be sure to specify the version of documentation which corresponds to the software. **NO RETURNS OR EXCHANGES OF MATERIALS WILL BE ACCEPTED.**

The Directory has been designed to be a flexible reference tool. You will find documentation arranged by Operating Systems followed by the applicable Layered Products. Documentation kits will list the order number followed by the description and then the kit price. Below this information you will find a list of the manuals which make up the kit. Please note that only documentation kits include spines, dividers, inserts, Software Products Descriptions and other supplemental materials. These parts will not be listed as they are a special feature of kits and are not available for sale. Also note that some manuals are only available within the documentation kit and can not be ordered separately. Information on both manuals and kits can also be found in the part number indexes.

The description, pricing and availability of items in this directory are subject to change without notice.

Sincerely,



Sheila J. Soucy

DPD Editor

SOFTWARE AND LICENSE ORDERING INFORMATION

Announcing a FASTER and EASIER way to meet your software needs. You can now order Hkit software and licenses through DecDirect by calling 1-800-DIGITAL

This applies to additional software products not ordered as part of a system order.

SOFTWARE HANDBOOK

The Software Handbook is a compact resource guide that contains descriptions of software available from Digital Equipment Corporation. The Handbook is designed to be a concise reference tool that can assist you with your software purchases. The Software Handbook includes descriptions of software products for all DIGITAL systems including VAX systems, PDP-11 systems, and a variety of desktop computers.

If you would like a copy of the latest Software Handbook, please send your requests to the following address:

Inquiry Department

TO ORDER BY DIRECT MAIL

WRITE TO:	DIGITAL EQUIPMENT CORPORATION P.O. Box CS2008 Nashua, NH 03061

CURRENT DOCUMENTATION WILL BE SHIPPED WITHIN 30 DAYS.

FOR DIGITAL INTERNAL USE ONLY: To submit internal orders for Software Documentation, complete an Internal Software Order Form (EN-01740-07) and forward to SDC Order Processing - WMO/E15 or Digital Equipment Corporation, Westminster, Massachusetts 01473.

IMPORTANT ORDER INFORMATION FOR QUICKEST TURNAROUND

- No limit for telephone orders. No limit for mail orders - terms are payment with order, FOB shipping point.
- If you are an approved open account customer payment terms are net 30 days.
- Digital will pay the surface freight for prepaid orders shipped within the continental U.S.
- Personal orders must be prepaid. We accept check, Visa or Mastercard.
- Partial shipments will be made.
- Include Digital's order number and manual description when ordering.
- Your order should reflect only Digital's standard terms and conditions.

RETURN POLICY

All Software Documentation products ordered and shipped can not be returned. If there is a problem or discrepancy with your order, please contact a Customer Service Administrator at 1-800-DIGITAL.

NONPROFIT REPRODUCTION AGREEMENT

Nonprofit educational institutions, authorized OEMs, and end users who require an alternative method of providing high volumes of manuals/documents to students or employees may be eligible to purchase a license to locally reproduce DIGITAL copyrighted software publications.

The institution will determine the quantity needed of the particular publication(s). DIGITAL, in turn, grants a license to copy the publication(s). The institution may, within a one year period, reproduce the documentation, in whole or in part, up to the specified quantity.

The royalty fee paid to DIGITAL is twenty-five percent of the list price of the publication multiplied by the quantity to be reproduced.

EXAMPLE: $10.00 (MANUAL LIST PRICE) X 100 (QUANTITY) = $1000.00 (TOTAL LIST PRICE)

$1000.00 (TOTAL LIST PRICE) X 25% (ROYALTY FEE) = $250.00 (NET PRICE)

DIGITAL EQUIPMENT CORPORATION
STANDARD TERMS AND CONDITIONS

The folowing are the terms and conditions under which Digital Equipment Corporation ("DIGITAL") sells and licenses its Products (equipment and software) and services in the United States of America. Custom Services are subject to DIGITALS's then current Custom Services Terms and Conditions.

1. TAXES

Prices and charges are exclusive of, and Purchaser is responsible for, all sales, use and like taxes.

2. DELIVERY, SECURITY INTEREST, DELAYS

Delivery of Products will be F.O.B. DIGTIAL's plants.

Purchaser will be responsible for all subsequent charges. DIGITAL will, however, unless otherwise directed in writing by Purchaser, repay transit insurance and freight and will bill Purchaser for insurance at the rate of $0.50 per $100.00 of equipment valuation and for constructed transportation charges. Purchaser may designate a specific carrier on an order. DIGITAL reserves the right to choose an alternate carrier if shipments are not picked up within forty-eight (48) hours after notification.

Purchaser hereby grants DIGITAL a security interest in the Products and in any proceeds (including acccounts receivable) as security for its obligations hereunder and will execute any document required to perfect this security interest.

DIGITAL shall not be liable for any delay in delivery or performance of services due to causes beyond the reasonable control of DIGITAL.

3. PAYMENTS AND CHARGES

3.1 Equipment and Software

Terms are net thirty (30) days from date of each delivery subject to Purchaser's maintaining credit arrangements satisfactory to DIGITAL. Otherwise, terms are cash on delivery.

3.2 Services

Payment of the applicable charges is due upon receipt of invoice unless otherwise stated in the applicable Service Description. Prepayment in full must accompany registration for any scheduled course conducted at a DIGITAL facility. Charges for term services may be adjusted by DIGITAL after the initial term specified in the applicable Service Description upon ninety (90) days prior written notice. charges for other than term services and for services not covered by the applicable term Service Description shall be made at the then prevailing applicable published by DIGITAL rates.

4. SITE PREPARATION, INSTALLATION

Purchaser shall make available a safe and suitable place for installation in accordance with DIGITAL's installation and site preparation procedures.

Computers shall be installed by DIGITAL anywhere within the United States except Alaska at no addtional charge only if the applicable price list states that installation is included in the price. Installation shall be deemed completed upon successful conclusion of DIGITAL's standard test procedures. Installation of field installed options shall be the responsibility of Purchaser except when Purchaser agrees to pay DIGITAL for the installation. DIGITAL shall be under no obligation to install equipment unless (i) it is properly treated, (ii) all prerequisite products and installation site are properly prepared, and (iii)the equipment, products and sites are made available to DIGTIAL within thirty (30) days after delivery. Installation of software ahall be in accordance with the then current applicable Software Product Description or Service Description.

DIGITAL does not have to accept responsibility to connect DIGITAL Products to non-DIGITAL equipment. Should DIGITAL, at its option, connect these products, DIGITAL shall have no liability for any damage which may result.

5. WARRANTY

5.1 Equipment Warranty

5.1.1 Equipment is warranted against defects in workmanship and material for a period of either (i) ninety (90) days, (ii) one (1) year for those Products such as some magnetic media, chips, and modules so indicated in the applicable price list, or (iii) a minimum of thirty (30) days for parts supplied or repaired under service, from the date of installation completion, or, if DIGITAL is not to install, from the date of delivery. If DIGITAL is prevented from installing any equipment by causes beyond its control for more than thirty (30) days from the date of delivery, the warranty period will commence on the thirtieth (30) day after delivery.

5.1.2 DIGITAL's sole responsibility under this warranty shall be to either repair or replace, at DIGITAL's option, during DIGITAL's normal working hours, any component which fails during the warranty period because of a defect in workmanship and material. All replaced equipment or parts shall become DIGITAL's property.

5.1.3 For equipment which is indicated in the applicable price list as eligible for on-site warranty and which is installed by DIGITAL, DIGITAL will perform the warranty at Purchaser's site within the United States, except Alaska. Personal Computers, although not installed by DIGITAL, will receive on-site warranty within the continental United States.

5.1.4 For all other equipment, except as stated in an applicable price list, DIGITAL will perform the warranty at a DIGITAL repair facility in the United States. Purchaser must return equipment only in accordance with DIGITAL's shipping instructions.

5.1.5 If DIGITAL determines that the equipment is not defective within the terms of the warranty, Purchaser shall pay DIGITAL all costs of handling, transportation and repairs at DIGITAL's then prevailing rates.

5.2 Software Warranty

DIGITAL Supported Software is warranted to conform to the DIGITAL Software Product Description ("SPD") applicable at the time of shipment. DIGITAL's sole obligation shall be to remedy any non-conformance of the software to the SPD as specified in the SPD. All other software is provided "as is."

5.3 Services Warranty

DIGITAL warrants that service will be performed in a good, workmanlike manner in accordance with the applicable Service Description.

5.4 General

The stated warranties are contingent upon proper treatment and use of the Product and maintenance of a safe and suitable site.

EXCEPT FOR THE EXPRESS WARRANTIES STATED HEREIN, DIGITAL DISCLAIMS, WITHOUT LIMITATION, ALL IMPLIED WARRANTIES OF FITNESS.

6. PATENTS AND COPYRIGHTS

6.1 Defense and Indemnification

DIGITAL shall defend, at its expense, any claim (or suit) brought against Purchaser alleging that any Products furnished hereunder infringe a United States patent or copyright, and shall pay all costs and damages finally awarded, provided that DIGITAL is given prompt written notice of such claim and is given information, reasonable assistance, and sole authority to defend or settle the claim. In the defense or settlement of the claim, DIGITAL may obtain for purchaser the right to continue using the Products, replace or modify the Products so that they become non-infringing or, if such remedies are not reasonably available, grant Purchaser a credit for the Products as depreciated and accept their return. DIGITAL shall not have any liability if the alleged infringement is based upon the use or sale of the Products in combination with other products or devices not furnished by DIGITAL. DIGITAL disclaims all other liability for patent and copyright infringement, including any incidental or consequential damages.

6.2 Patent License

For Products furnished hereunder which have a UNIBUS interconnection bus, DIGITAL grants to Purchaser a non-transferable license under U.S. Patent 3,815,099 to manufacture up to ten (10) Devices for connection to such bus and to use or sell the Devices so manufactured. For Professional 300 Family Products furnished hereunder which have a CTI Bus inteconnection bus, DIGITAL grants to Purchaser a license under DIGITAL's Patent Rights to manufacture and/or to connect Devices to such CTI Bus only and to use or sell the Devices so manufactured. "Device" means a memory or peripheral unit adapted to be directly connected to the bus, or an interface for a memory or peripheral unit enabling it to be directly connected so that the connected memory or peripheral unit is covered by this patent.

7. SOFTWARE PRODUCT LICENSE

7.1 All single-use licensed software, including any subsequent update purchased, and any part thereof ("Software") may be used on only the single CPU or equipment configuration specified in the applicable SPD on which the Software is first installed, and may be copied, in whole or in part (with the proper inclusion of the DIGITAL copyright notice and any DIGITAL proprietary notices on the software) only for use on that CPU or specified equipment configuration.

7.1.1 The Software may be used on another single CPU on a temporary basis during a malfunction of the original CPU which causes the Software to be inoperable.

7.1.2 Purchaser shall not make available the Software in any form to any third party (except Purchaser's employees or agents directly concerned with Purchaser's licensed use of the Software).

7.2 Software licenses granted without media are subject to all of the terms of this Software Product License, except that the Purchaser may obtain the Software by copying licensed Software in the Purchaser's possession onto the CPU for which the Software is licensed.

7.3 Source-licensed software requires the execution of a separate Software Program Sources License Agreement between Purchaser and DIGITAL.

7.4 Third-party software designated in the applicable price list as subject to a third-party license agreement is subject to the terms and conditions of the License Agreement accompanying the software. Purchaser will not copy, use, disclose or transfer the software except as provided in the applicable License Agreement.

7.5 In the event that software is first made by DIGITAL in the performance of a service for purchaser, DIGITAL shall be free to use for any purpose any concepts, ideas, techniques or general software developed by the specialist during the performance of the services. It is understood that DIGITAL shall be free to pursue, either directly or with third parties, business or applications of a similar nature. All other software, including packaged applications software and/or software modifications furnished to customer are licensed in accordance with the terms of the applicable paragraphs in section 7 of these terms.

7.6 No title or ownership of any Software is transferred to Purchaser.

7.7 DIGITAL may terminate all Software licenses granted hereunder and require return of the Software if Purchaser fails to comply wih these license terms and conditions.

8. DIGITAL'S PROPERTY

Documentation, schematics, maintenance materials, tools, Site Management Guides, test equipment, software (including diagnostic software) for which a license has not been obtained, and associated media to be used by DIGITAL personnel at the installation site shall remain the exclusive property of DIGITAL and ahall be for DIGITAL's sole use.

9. SERVICES

9.1 Services will be furnished in accordance with the applicable Service Description. However, DIGITAL may terminate or refuse service if, in DIGITAL's opinion, conditions at the equipment location represent a hazard to the safety or health of any DIGITAL employee.

9.2 For those services where DIGITAL may provide on-site service, a waiver of liability or other restrictions will not be imposed as a requirement for access.

10. MOVEMENT OF EQUIPMENT UNDER TERM SERVICE

10.1 Purchaser will notify DIGITAL thirty (30) days prior to moving equipment. DIGITAL will be under no obligation to continue service (either equipment and/or software) if equipment is moved without DIGITAL's written approval.

10.2 DIGITAL, at its option, will supervise the deinstallation and reinstallation of the equipment and/or software. Monthly charges will be suspended when the equipment and/or software is deinstalled and will be adjusted and/or reinstated on the day following reinstallation. Purchaser will pay for labor and materials provided by DIGITAL during the movement.

11. EXPORT

Regardless of any disclosure made by Purchaser to DIGITAL of an ultimate destination of the Products, Purchaser will not export, either directly or indirectly, any documentation, Product or system incorporating such Product without first obtaining a license from the United States Government, as required.

12. CANCELLATION AND RESCHEDULE CHARGES

In the event Purchaser (i) cancels all or any part of any order, or (ii) fails to meet any obligations hereunder, causing cancellation or rescheduling of any order or portion, or (iii) requests a rescheduling of scheduled equipment and the request is accepted by DIGITAL, Purchaser agrees to pay to DIGITAL the following cancellation/reschedule charges:

CANCELLATION OR RESCHEDULE NOTICE RECEIVED	CANCELLATION/RESCHEDULE CHARGE (of equipment list price)
90 days to 31 days prior to Scheduled Delivery	5% or $400, whichever is greater
30 days or less prior to Scheduled Delivery	10% or $400, whichever is greater

Cancellation charges for regularly scheduled courses conducted at a DIGITAL facility are fifty (50%) percent of the course price if cancelled fourteen (14) days or less prior to the scheduled start date. Cancellation charges may also be incurred as specified in the applicable Service Description in the event of customer's cancellation of services furnished under contract.

13. LIMITATION OF LIABILITY

PURCHASER'S RIGHT TO RECOVER DAMAGES TO PROPERTY CAUSED BY DIGITAL'S FAULT OR NEGLIGENCE SHALL BE LIMITED TO ONE (1) MILLION DOLLARS. DIGITAL WILL NOT BE LIABLE IN ANY EVENT FOR ANY DAMAGES RESULTING FROM A LOSS OF DATA, PROFITS, USE OF PRODUCTS OR FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. This limitation of DIGITAL's liability will apply regardless of the form of the action, whether in contract or tort including negligence. Any action against DIGITAL must be brought within eighteen (18) months after the cause of action acccrues.

14. GENERAL PROVISIONS

DIGITAL Products are not intended to be sold or licensed for direct control of nuclear facilities. DIGITAL may require additional contractual safeguards for other nuclear and air traffic control applications.

A contract will become binding only when a written acceptance of Purchaser's order is sent to Purchaser by DIGITAL and will be governed by the laws of Massachusetts. The contract, including the applicable Software Product Description(s) and/or Service Description(s), will constitute the entire agreement between the parties with respect to the subject matter of the contract. These terms and conditions shall prevail notwithstanding any other terms and conditions on any order submitted by the Purchaser.

Neither party may assign the contract unless mutually agreed.

All rights and remedies conferred under the contract or by any other instrument or law shall be cumulative and may be exercised singularly or concurrently. Failure by either party to enforce any contract term shall not be deemed a waiver of future enforcement of that or any other term. The provisions of the contract are declared to be severable.

NEW DISCOUNT POLICY FOR SOFTWARE DOCUMENTATION PURCHASES

Effective June 29, 1987, Software Documentation became discountable. We have eliminated Quantity Price Breaks (QPB's) and have changed to Digital SVA discounts. The discount structures are listed below:

End User Discount - SVA Code A

Discountable under the SVA, or Curve 'A' of the D.B.A.

Discount equals negotiated Digital Discount (0 - 21%).

Volume (OEM) Discount - SVA Code 2

Discountable under the SVA, Curve 'B', plus 10% product discount of the DBA.

Discount equals negotiated Digital discount (12 - 21%) plus a 10% product discount.

For additional information regarding Digital's discount structure, refer to the general preface pages of the USPL (U.S. Price List) or contact your local Digital Sales Representative.

STANDARDIZATION OF BINDERS

DIGITAL has standardized binder offerings to provide better quality and availability. The following is a list of all binders which DIGITAL currently offers for sale and the corresponding binders that they replaced:

Part Number	Size	Replaced Parts
99-07862-01	2.5'' -8.5 X 11	12-13565-02 AV-CG52A-TK AV-P126A-TK
99-07861-01	1.5'' -8.5 X 11	AV-CH48A-TK AV-EY21A-TK AV-EY22A-TK AV-L082A-TK AV-U045A-TK AV-V681A-TK AV-W335A-TK
99-07860-01	2.5'' -7 X 9	AV-Z253A-TK AV-CH12A-TK
99-07859-01	2'' - 7 X 9	AV-DK31A-TK AV-CH50A-TK AV-DK30A-TK
99-07858-01	1.5'' -7 X 9	AV-CH11A-TK AV-Y934A-TK AV-BH44A-TK AV-BC70A-TK

NEW PREFIX FOR MANUAL/BINDER COMBINATION (AI-nnnnn-nn)

There is a new prefix designator, ''AI'', for new manuals that are pre-packaged with the binder and the spine inserts. Please note the following:

AI-12345-xx ---- binder/manual combination
AA-12345-xx ---- manual
AD-12345-Tn ---- update to manual
AV-12345-xx ---- reference material
99-nnnnn-01 ---- binder

"AA" PREFIXED PARTS, WHICH HAVE A CORRESPONDING 'AI' PREFIXED PART, WILL NOT BE SOLD SEPARATELY.

VAX SOFTWARE DOCUMENTATION

Contains software documentation for the VAX product family, including layered products.

VAX/VMS V4.4 DOCUMENTATION KIT OVERVIEW

The VAX/VMS Document Set, Order Number QL001-GZ priced at $1,675.00, is made up of four major components, the VAX/VMS Reference Shelf, the VAX/VMS Guides, the VAX/VMS Condensed Document Set, and the VAX/VMS Programming Card/TECO Guide.

SUMMARIES OF VOLUMES OF THE VAX/VMS REFERENCE SHELF

The ten volumes of the VAX/VMS Reference Shelf are described in the following paragraphs. (QLZZ0-GZ $1103.00)

Volume 1: VAX/VMS General User (QLZZ1-GZ $147.00)

The General User volume spans two binders: the first binder (labeled Volume 1A) contains the general introduction to the VAX/VMS document set, a glosary of terms used throughout the documentation, a master index of the entire document set, and release notes for VAX/VMS Version 4.4.

The second binder (Volume 1B) contains descriptions of three utilities intended for use by all VAX/VMS users, regardless of their level of expertise, plus the VAX/VMS DCL Concepts Manual, an overview of the VAX/VMS command language. Note that prior to Version 4.4, the VAX/VMS DCL Concepts Manual was packaged as Part 1 of the VAX/VMS DCL Dictionary.

Volume 2: VAX/VMS Command Language (QLZZ2-GZ $74.00)

The Command Language volume contains the VAX/VMS DCL Dictionary, which describes the VAX/VMS DIGITAL Command Language, DCL. The dictionary provides detailed reference information and examples of all DCL commands and lexical functions, and presents them in alphabetical order.

Volume 3: VAX/VMS Text Processing (QLZZ3-GZ $137.00)

The Text Processing volume contains four manuals: the three manuals in the first binder (Volume 3A) fully describe the EDT interactive text editor, the DIGITAL Standard Runoff (DSR) text formatting utility, and the SUMSLP batch-oriented text editor; the manual in the second binder (Volume 3B) describes the VAX Text Processing Utility (VAXTPU). Reference information about the EVE and EDT Keypad Emulator interfaces to VAXTPU is provided in the two appendixes to the VAX Text Processing Utility Reference Manual.

Volume 4: VAX/VMS System Messages (QLZZ4-GZ $63.00)

The System Messages volume contains an alphabetical listing of the error, warning, and informational messages issued by the VAX/VMS operating system. The meaning of each message and a statement of the action to be taken in response to each message are provided in the text.

Volume 5: VAX/VMS System Management (QLZZ5-GZ $257.00)

The System Management volume is a reference source for system managers: its two binders contain the VAX/VMS System Manager's Reference Manual, which describe how to set up and maintain a VAX/VMS system, and 14 manuals that describe utilities that are of particular interest to system managers. (Note that the VAX/VMS System Manager's Reference Manual was formerly entitled the Guide to VAX/VMS System Management and Daily Operations.

Volume 6: VAX/VMS Networking (QLZZ6-GZ $95.00)

The Networking volume includes a comprehensive reference manual (formerly entitled the Guide to Networking on VAX/VMS) that describes the networking software used on VAX/VMS systems, and two manuals that describe networking-related utilities.

Volume 7: VAX/VMS Program Development (QLZZ7-GZ $142.00)

The Program Development volume spans two binders. The manuals in this volume describe program development tools provided with the VAX/VMS operating system.

Volume 8: VAX/VMS System Routines (QLZZ8-GZ $278.00)

The System Routines volume contains detailed information about the following types of system routines: utility routines (Volume 8A), routines of the Run-Time Library (Volume 8B and 8C), and system services (Volume 8D). Documentation of these routines follows a standard format which is described in the Introduction to VAX/VMS System Routines, and includes information on syntax, argument types, and error codes.

Volume 9: VAX/VMS RMS (QLZZ9-GZ $89.00)

The RMS volume contains reference and usage information for all programmers who use VAX RMS data files.

Volume 10: VAX/VMS System Programming (QLZ10-GZ $205.00)

The System Programming volume spans three binders. It contains information that is of interest to system programmers. For example, one manual documents both the assembler directives of VAX MACRO and the VAX instruction set. This volume also provides detailed information needed for interfacing directly with the I/O device drivers supported by the VAX/VMS operating system. (Note that the manual formerly entitled Guide to Writing a Device Driver for VAX/VMS is included in this volume.)

VAX/VMS GUIDES (QLYY1-GZ $473.00)

The guides which accompany the reference shelf, introduce and explain specific topics, concepts, and task involved in using the system. These guides cover a broad range of topics and are intended to satisfy the needs of users of widely differing knowledge and experience.

VAX/VMS PROGRAMMING CARD/TECO MANUAL (QLYY2-GZ $32.00)

This kit contains three VAX-11 Programming Cards and the PDP-11 TECO User's Guide.

VAX/VMS CONDENSED DOCUMENTATION SET (QLZ20-GZ $126.00)

The VAX/VMS Condensed Documentation Set is intended to be a compact, easily accesible reference tool that provides the information most commonly needed for the day-to-day use of the VAX/VMS system. It is made up of two manuals; each is described below.

The VAX/VMS User's Manual is an overview of the general user of the VAX/VMS operating system and the VAX/VMS Mini Reference Manual which provides quick-reference information on the VAX/VMS DCL commands and lexical functions, utilities, text editors and formatters, and callable system routines.

Organization By Function

The VAX/VMS document set has been significantly reorganized for Version 4.4. Some manuals that had been guides (the books in the smaller binders) are now part of the reference shelf (the books in the bigger binders), and the reference shelf manuals are now grouped into 'functional' volumes; that is, volumes containing information thought to be of interest to a particular type of user.

For example, the VAX/VMS utilities are no longer packaged in one reference shelf volume; instead, they are part of functional volumes labeled Program Development, System Management, Networking, System Programming, and so forth.

The guides which moved to the reference shelf--the system management, networking, and device driver manuals--had become too long and detailed to fit our concept of what a task-oriented guide should be. We decided that they were used more as reference manuals than as guides, and so belonged on the reference shelf. It seemed logical to group these former guides in volumes with reference shelf manuals that contained associated information. Thus, the former networking guide appears side-by-side, in one volume, with the manuals that describe networking utilities.

User's and Programmer's Document Sets

The functional volume approach made it convenient to subdivide the reference shelf into two new subkits:

- VAX/VMS User's Document Set (QLZ30-GZ $656.00)
- VAX/VMS Programmer's Document Set (QLZ40-GZ $604.00)

The user's set consists of reference shelf volumes 1 through 6; thus, it contains information on managing the system, plus information thought to be of general interest to all users, regardless of the specific tasks they use the system for. The programmer's set, volumes 7 through 10, contains information aimed specifically at programmers.

Condensed Document Set

There is another new subkit for Version 4.4 called the VAX/VMS Condensed Document Set (order number QLZ20-GZ). It consists of two new manuals:

- VAX/VMS User's Manual--contains reference material and guidelines that describe how to perform the most common tasks necessary for day-to-day use of the system.
- VAX/VMS Mini-Reference--describes the syntax of most operating system components, for example, DCL commands, editors, many system utilties, and system routines. (Note that this manual supersedes most of the quick reference booklets included in the Version 4.2 document set.)

The condensed set is intended to be a compact, easily-accessible reference tool that can meet most of the daily needs of users who may not have, or want, a full document set on their desk-top.

Optional Documentation

Some new, optional documentation is available with the release of Version 4.4. VAX/VMS optional documentation is not packaged with the VAX/VMS document set. It takes one of two forms:

- Documentation that supports optional VAX/VMS products (that is, products that are sold separately but make use of some existing VAX/VMS components).
- Optional documentation products that describe operating system features, but that are not included in the full document set because they are intended for a limited audience.

In the first category, there are two books associated with Version 4.4:

- VAX/VMS Volume Shadowing Manual (order number AI-HI90A-TE)
- Guide to Multiprocessing on VAX/VMS (order number AA-HP69A-TE)

In the second category, there is just one book: VAX/VMS Developer's Guide to VMSINSTAL (order number AA-HB12A-TE). We expect to offer more of this type of optional documentation in the future.

Miscellaneous Changes to Full Set

There are some other miscellaneous document set changes that may be of general interest:

- The VAX/VMS DCL Dictionary consists solely of Part II of the manual which was in Version 4.2. The former Part I, Using the Command Language, is packaged as a new manual, the VAX/VMS DCL Concepts Manual.
- Two of the Version 4.2 VAXTPU books have been removed from the document set. Information from the former User's Guide to EVE and VAXTPU EDT Keypad Emulator Quick Reference Guide were moved to the Guide to Text Processing on VAX/VMS.
- The word 'Symbolic' was removed from the title of the debugger manual--the book has been renamed the VAX/VMS Debugger Reference Manual.
- The Version 4.4 release notes manual is the only release notes manual in the document set. Information from the release notes manuals for Versions 4.0 through 4.3 have been incorporated in the appropriate manuals in the document set, wherever possible. Information that could not be incorporated (for instance, because the appropriate manual was not changed for Version 4.4) has been carried over in the Version 4.4 release notes.

VAX INFORMATION ARCHITECTURE SYSTEM DOCUMENTATION

The VAX Information Architecture encompasses DIGITAL's information management software products. There are eight VAX Information Architecture products:

- VAX CDD -- a central storage facility for data definitions used by VAX Information Architecture components and a growing number of VAX languages
- VAX DBMS -- a CODASYL-compliant database management system
- VAX Rdb/VMS -- a relational database management system
- VAX DATATRIEVE -- a query and report writing language
- VAX ACMS -- a component for developing and managing large online applications in a transaction processing environment
- VAX TDMS -- a terminal data management system that displays forms and manages data using definitions stored in the Common Data Dictionary (CDD)
- VAX Data Distributor -- a component for copying relational databases to directories on the same node (source node) as the source database or on remote nodes in a network
- VIDA -- a relational database facility for reading data resident on IBM systems

The VAX Information Architecture system documentation provides information about all eight products. The four books are:

VAX Information Architecture Summary Description (AA-JK90B-TE)

Provides an overview of each of the eight VAX Information Architecture products.

VAX Information Architecture Documentation Directory, Master Glossary, and Master Index (AA-JK89B-TE)

Describes the documentation available for each product in the VAX Information Architecture family. It also includes a master glossary of terms used by the different products and a master index to the product documentation sets.

Introduction to Database Development (AA-JK92A-TE)

Gives a step-by-step introduction to designing and implementing databases with VAX Information Architecture components.

Introduction to Application Development (AA-JK93A-TE)

Gives a step-by-step introduction to developing software applications with VAX Information Architecture components.

There are two VAX Information Architecture system documentation kits:

- QLZ28-GZ -- contains all four books.
- QLZCT-GZ -- contains the Introduction to Application Development and the Introduction to Database Development.

The two development volumes are designed to show how to use VAX Information Architecture products in combination to solve business information problems such as inventory control, reservations tracking, personnel administration, and order processing. The books provide a complete picture of the processes involved in creating and implementing applications and databases.

Introduction to Database Development

This manual describes in detail the design, development, and tuning of two databases to support transaction processing applications for the AVERTZ Car Rental Company. One database uses VAX DBMS, which is CODASYL-compliant; the other uses VAX Rdb/VMS, a relational database product. The products described in this book are: VAX CDD, VAX DATATRIEVE, VAX Data Distributor, VAX DBMS, VAX RALLY, VAX Rdb/VMS, VAX TEAMDATA, and VIDA.

This book starts with the work involved in designing a database: requirements analysis, data analysis, and transaction analysis. Other topics include implementing the database, maintaining and tuning the database, and balancing the needs of database readers and database writers. An appendix contains the complete definitions for the sample databases.

Introduction to Application Development

This manual describes in detail the design, development, and testing of two database applications for the AVERTZ Car Rental Company. The applications use six VAX Information Architecture products: VAX ACMS, VAX CDD, VAX DATATRIEVE, VAX DBMS, VAX Rdb/VMS and VAX TDMS. In addition, the book describes how to use various programmer productivity tools to help you design, manage, test, and maintain applications. The tools are: VAX DEC/CMS (Code Management System), VAX DEC/MMS (Module Management System), VAX DEC/Test Manager, VAX Language-Sensitive Editor (LSE), VAX Performance Coverage Analyzer (PCA), and VAX Software Performance Monitor (SPM).

The topics covered in this book are designing an application, testing the application design, designing the application interface, performing transaction processing against a database, building and testing the application code, tuning and maintaining the application, and querying the database. An appendix contains the complete sources for the sample applications. The two sample databases referenced in this manual are the same ones used in the Introduction to Database Development.

To order documentation sets for the individual VAX Information Architecture products, see the listings under the product name in this section of the catalog.

INTRODUCTION TO VAXCLUSTER APPLICATION DESIGN

This manual is a conceptual guide to designing an application to take advantage of the capabilities of both Computer Interconnect (CI)-based VAXcluster Systems and Local Area VAXcluster Systems. The book introduces information about:

- The hardware and software products available to applications running on a VAXcluster System
- The appropriate hardware and software configuration relevant to programming your application on a VAXcluster System
- The types of applications that are best and least suited to run in a VAXcluster environment
- Improvements in resource availability and application performance
- The design of distributed applications that run on multiple central processing units (CPUs) in a VAXcluster System
- Synchronized access to shared resources

The manual also refers the reader to courses and related VMS documentation for detailed discussions on individual topics.

This manual is intended for application programmers. Readers should be familiar with VMS and have an understanding of programming techniques. After reading this book, the readers will understand the concepts and programming foundations for developing applications for a VAXcluster System.

The order number for this manual is AA-JP32A-TE.

VAX/VMS SOFTWARE DOCUMENTATION ORDERING INSTRUCTIONS

Customers wishing to purchase a complete VAX/VMS V4.6 Documentation Kit for the first time must order the following parts:

QL001-GZ	VAX/VMS V4.4 Documentation Kit	$1675.00
AA-JF88A-TE	VAX/VMS V4.5 Release Notes	$42.00
AI-KN06A-TE	VAX/VMS V4.6 Release Notes w/binder	$32.00
AA-JP20C-TE	Guide to Local Area Vaxclusters	$10.00

Customers wanting a complete VAX/VMS V4.6 Documentation Kit, who currently have the V4.5 documentation, can update to V4.6 by ordering the following parts:

AI-KN06A-TE	VAX/VMS V4.6 Release Notes w/binder	$32.00
AA-JP20C-TE	Guide to Local Area Vaxclusters	$10.00

Customers wanting a complete VAX/VMS V4.6 Documentation Kit, who are currently at V4.4, can update to V4.6 by ordering the following parts:

AA-JF88A-TE	VAX/VMS V4.5 Release Notes	$42.00
AI-KN06A-TE	VAX/VMS V4.6 Release Notes w/binder	$32.00
AA-JP20C-TE	Guide to Local Area Vaxclusters	$10.00

Customers wanting to update their VAX/VMS V4.2 Documentation Kit to V4.4 should order the following archival part:

QL001-WZ	VAX/VMS V4.3-V4.4 Archival Update Documentation Kit	$940.00

NOTE: All the components of the VAX/VMS Documentation Kit are orderable separately.

MICRO SOFTWARE DOCUMENTATION

Contains available documentation for the Micro families; MicroVMS, MicroRSX and MicroRSTS.

MICROVMS SOFTWARE DOCUMENTATION ORDERING INSTRUCTIONS

Customers wanting the MICROVMS V4.6 Documentation Kit, who currently have the MICROVMS V4.5 Documentation Kit, can udpate their documentation by ordering the following part:

AI-KN07A-TN	MICROVMS V4.6 RELEASE NOTES	$30.00

Customers wanting to purchase the MICROVMS V4.6 Documentation Kit, who do not have a previous version of the documentation, need to order the following part:

QZ001-GZ	MICROVMS V4.6 DOCUMENTATION KIT	$362.00

NOTE: All the components of the MICROVMS Documentation Kit are orderable separately.

MICROVMS DOCUMENTATION KIT OVERVIEW

The MICROVMS Documentation Set provides a subset of the information included in the VAX/VMS Documentation Set. The intent of the MICROVMS set is to describe, in a compact and concise style, the most commonly used features of the operating system and to provide most of the information needed by most users. For complete details on any of the operating system components, users must purchase the appropriate manuals from the VAX/VMS Documentation Set.

The MICROVMS Documentation Kit (QZ001-GZ) consists of the following manuals:

- MICROVMS Programming Pocket Reference - Order No. AA-Z214B-TE: Provides syntax for programmer-utilized DCL commands, debugger commands, dot notation and run-time library and utility routines.
- MICROVMS Programming Pocket Reference - Order No. AA-Z211C-TE: Provides syntax for DCL commands, as well as quick reference material on the text editors, command line editing, lexical functions, MAIL utility commands and Digital Standard Runoff (DSR) commands.
- MICROVMS User's Primer - Order No. AA-Z210C-TE: A tutorial primer that introduces new users to the MICROVMS system.
- MICROVMS User's Manual Part I - Order No. AI-FW62B-TN: Provides guidelines and reference information for MICROVMS users who are not computer programmers. The MICROVMS User's Manual consists of ten chapters of guidelines for using the MICROVMS operating system and thirteen appendices of reference information. The chapters describe general operations and system tuning, accounts and security, interaction with the system, storage and output of data, data representation, command procedures, editing files with the EDT editor, the EVE interface to VAXTPU and the EDT Keypad Emulator interface to VAXTPU and using Digital Standard Runoff (DSR).
- MICROVMS User's Manual Part II - Order No. AI-FW63B-TN: Provides reference information about access acontrol lists, the authorize utility, the ASCII and Digital Multinational character sets, DCL commands used by MICROVMS users who are not programmers, the disk quota utility, Digital Standard Runoff (DSR), the EDT editor, escape sequences, tables listing data operations and comparisons in order of precedence, VT100 and VT200 terminal keys, lexical functions, the interactive MAIL utility and EDT Keypad Emulator and EVE interfaces to the VAXTPU text processing utility.
- MICROVMS Programmer's Manual - Order No. AI-Z212B-TE: Contains guidelines for accomplishing various programming tasks in conjuction with tools provided by MICROVMS. The MICROVMS Programmer's Manual consists of ten chapters and a single appendix. The manual describes interunit logic, intraunit logic and local storage, program synchronization and communications, compiling and linking programs, using the debugger, data structures, command input and syntax analysis, user Input/Output, file Input/Output, run-time errors and guidelines for using the FORTRAN programming language.
- MICROVMS Programming Support Manual - Order No. AI-DC87B-TE: Contains descriptions of the programming tools outlined in the MICROVMS Programmer's Manual. This manual describes the command definition utility, the debugger, DCL commands that are used by programmers, argument notation and structural definitions, condition codes, the file definition language, the messge utility, QIO system services, run-time library, and utility routines and system service routines.

The MICROVMS User's Manual Documentation Kit - Order No. QLN55-GZ contains the MICROVMS User's Manual Part I and Part II and is orderable as a separate documentation kit.

SOFTWARE DOCUMENTATION INDEXED BY PART NUMBER

The Software Documentation Index by Order Number is designed for the user that has only the order number of a manual or kit, but needs further information.

The Index is arranged by order number followed by product title, appropriate reference page(s) and price. Manuals which do not list a price are only available within the documentation kit.

KIT INDEX BY PART NUMBER

SOFTWARE DOCUMENTATION INDEXED BY DESCRIPTION

The Software Documentation Index by Description is designed for the user that has the title of a manual or kit, but needs further information.

This Index is arranged by product title, order number, reference page(s) and price. Manuals which do not list a price are only available within the documentation kit.

KIT INDEX BY DESCRIPTION

DESCRIPTION	PART NO.	PAGE	PRICE
A-TO-Z DEVELOPER'S V2.01 DOCUMENTATION KIT	QP954-GZ-2.01/RZ	59	$184.00

Ordering Information

Catalog Number. Help us speed your order along and assure most current pricing. When placing your order, please include all letters and numbers in the part number and reference the two letter catalog code suffix.

Minimum Order. Minimum order is $35 unless you pre-pay by check or credit card.

Credit Cards. MasterCard and VISA accepted.

Terms. Terms are payment with order. Or, if you have an approved account, terms are net 30 days.

Credit Approval Procedure. All orders are subject to credit approval. If you do not already have an account and would like to expedite your credit approval, please call 603-884-9225. We will ask ask you for bank and trade references and any other information that may be needed.

Prices. Prices are listed in U.S. dollars and are subject to change without notice. The price charged will be the price in effect when Digital receives the order.

F.O.B. Shipping Point.

Shipping Information. Pay for your order in advance, and Digital will prepay and absorb all UPS or other surface freight shipping charges. When Digital is required to invoice you for your order, transportation charges will be prepaid and added to your invoice.

If your order exceeds weight and/or size limitations for the carrier selected, Digital will use the most appropriate transportation.

Digital in-transit insurance is available at the cost of $.60 per $100 of equipment evaluation.

We will make partial shipments to speed your order along, unless you specify "must ship complete."

Sales Tax Information. Prices and charges are exclusive of, and Purchaser is responsible for, all sales, use and like taxes. Failure to include all applicable state, county, local sales, use and like taxes, or a tax-exempt identification number for such taxes, by the Purchaser could result in delayed order shipment.

Discounts. Your order may qualify for substantial discounts.

We honor the following Digital corporate discount agreements:
Digital Business Agreement (DBA),
Standard Volume Agreement (SVA),
and applicable addenda MNDA.

To receive your discount, please be sure to reference the correct Discount Agreement Number and your Customer Account Number when placing your order.

Specific minimum order requirements may vary with discount.
